

muratto®
natural surface design

« **MURATTO®** is one of the most highly distinguished brands of natural surface design, with Portuguese origin.

With a profile that is distinguished by its dynamism and innovation, the company emerged in 2013, with the purpose of offering dazzling covering solutions. Focused on being an innovative brand in the design and production of coating finishes, MURATTO® is guided by a vision that focus on sustainable growth, relying on four main values:

Natural Lifestyle, Design, Sharing and Interior Comfort. »

VASCO BARROS, MURATTO CEO

NATURAL LIFESTYLE Muratto's process is based on the need for **sustainable development**, employing **natural raw materials** whenever possible and attempting to contribute to a **natural lifestyle** while remaining positive toward itself and others.

DESIGN This is the focal point of the creative process, which is focused on **active product and process creation**. The value of **handcrafted** goods, as well as **Portuguese tradition**, are important factors in developing the brand's identity. Muratto aims to approach **different types of décor and design** at the same time, from the most traditional to the most contemporary.

SHARING The best things often come from the most insane suggestions and the exchange of ideas. At Muratto, **we share our thoughts, ideas, emotions, wishes, and ambitions...** This is what propels us forward. We collaborate with a number of **international designers** from around the world to provide better solutions to our **partners**, allowing us to **create distinctive products** with unique designs. Working closely with our partners enables us to develop **sustainable products** and processes, which makes all the difference.

INTERIOR COMFORT For Muratto, it is still critical that all of its market interventions are aimed at Interior Comfort, that is, that each product is designed with features that have a positive impact on the daily lives of consumers. Aspects such as **acoustic effect**, **highly inspiring visual impact** and **thermal comfort**, and suitability to the environment, contribute to the comfort of homes, hotels, offices, commercial spaces, and other types of facilities, always in a positive way and with the goal of providing a constant real feeling of comfort.

ORGANIC BLOCKS

DESIGN BLOCKS BEEHIVE

ABOUT BEEHIVE

The shape of the Organic Block Beehive is the outcome of the organic growth of numerous geometrical planes. It's a natural and contemporary continuation of a simple honeycomb. The pattern appears to move, but it is balanced, providing the atmosphere with vitality, energy, and emotion.

DESIGN BLOCKS CHOCK

ABOUT CHOCK

Design Block Chock has four diagonal lines that emerge from the center of each square, like four windows that open in different directions, and is designed for maximum visual impact in larger areas and expansive rooms. Each of the four elements that make up Chock preserves its uniqueness while blending into the overall effect because to the simple geometry of the four sections.

DESIGN BLOCKS MINICHOCK

ABOUT MINICHOCK

Design Block Minichock is made up of four smaller squares that intersect at different angles and is designed for intimate spaces. The mosaic pattern is created by repeating the shape. The pattern is simple, yet it contributes to an environment that is expressive, energetic, and playful.

DESIGN BLOCKS PEAK

ABOUT PEAK

The Design Block Peak is made up of four asymmetrical triangles that culminate at a peak in each of its squares. The repetitive pattern creates a reflection of the ambient light and evokes the image of mountains. Peak takes its cues from nature and uses color mixing and matching to create diverse moods.

MATERIAL

Massive cork pieces agglomerated with special resins and additives, molded-in shape with mass color pigmentation.

DESIGN BLOCKS SENSES

ABOUT SENSES

An organic design is created by arranging a smoothly curved hourglass shape in horizontal and vertical orientations. The undulations of nature inspired the design of the Design Block Senses, and its volume adds dimension to smooth walls. Senses may partially or completely cover walls, allowing both flexibility and originality.

MATERIAL

Massive cork pieces agglomerated with special resins and additives, molded-in shape with mass color pigmentation.

DESIGN BLOCKS KUBUS

ABOUT KUBUS

Geometric shapes in décor are used in a variety of ways, adjusting to contexts that are traditional, retro, or even bold and cool in character. Design Block Kubus is visually impressive in all of its geometric form, with its three-dimensionality and, of course, natural composition standing out. The smooth yet distinct lines on its sides add to the exclusivity of this item, which will be the focal point of any room in which it is placed.

COMPLEMENTS SQUARE MOSS XL

ABOUT SQUARE MOSS XL

The moss Square XL was designed purely out of our passion for the combination of preserved natural moss and cork. Square Moss XL, a complement that incorporates the greenery and freshness of nature along with the elegance of cork, was created to pair with Peak, Chock, and Minichock.

MATERIAL

Solid cork sheet base filled with 100% naturally preserved moss. Due to the preserved moss' extension to the piece's ends, it is recommended to use it when combined with the Organic Blocks Peak, Chock and Minichock. Intended for indoor use only. Maintenance-free.

CORK STRIPS INFINITY

ABOUT INFINITY

The Cork Strips Infinity, which is made up of a sequence of horizontal stripes, is the ideal combination of simplicity and comfort. Its lines form a continuous pattern that provides wonderful optical illusions and light effects due to its volume. Infinity allows for endless combinations in various orientations and colors. This enables the creation of one-of-a-kind rooms that appear to have no end due to their solid lines.

CORK STRIPS FLOW

ABOUT FLOW

Cork Strips Flow is the epitome of movement, changing horizontal lines into free-flowing lines. Flow is a very exquisite item, but with a touch of irreverence, for its escape from the rigidity of lines that morph into fluid shapes. It was designed to go with Cork Strips Infinity, but it can also be used on its own as a continuous pattern. Its ultimate purpose is to produce ageless, elegant, yet alive, and moving walls. This artwork may also produce highly intriguing light effects with the correct illumination.

MATERIAL

Massive cork pieces agglomerated with special resins and additives, molded-in shape with mass color pigmentation.

CORK STRIPS CROSS

ABOUT CROSS

Cork Strips Cross puts the direction and continuity of the lines created by Infinity to the test, turning them into a crossed game and providing a fun and engaging overlay. The number of lines in various directions, both horizontal and diagonal, offers a fascinating 3D visual game that can be further enhanced by the application of lighting. The Cross can be used as a continuous pattern on its own, but it was created to be combined with the Cork Strips Infinity.

CORK STRIPS SPHERE

ABOUT SPHERE

The horizontal stripes that make up the Cork Strips Sphere are the perfect balance of simplicity and comfort. Its lines form a continuous pattern, but its large centre sphere gives it a three-dimensional appearance as well. Amazing light shows and optical illusions are produced as a result. It was designed as a continuation of Cork Strips Infinity because the two parts may be put together on the same wall to make an unlimited variety of patterns. However, it can also be used on its own. This makes it possible to design distinctive rooms that, because to their strong lines, seem to have no end.

CORK STRIPS STEP

ABOUT STEP

Cork Strips Step is a passionate piece with a lot of volume and three-dimensionality. This brings us back to the 'Cubism' art movement, which used geometric figures to represent natural forms. With its powerful character and appearance, which is further emphasized by the mix of colors and orientation in which it may be placed, this item will be the main focus of any room.

CORK STRIPS GEOMETRIC

ABOUT GEOMETRIC

Cork Strips Geometric is composed of a set of geometric shapes that, when combined, generate stunning visual effects. Hexagons, rhombuses, parallelograms, and even triangles can be visualized with just one piece. Creating a wall with several pieces, the pattern becomes continuous and provides a 3D visual effect. Geometric allows you to create sophisticated interiors that are also highly contemporary.

ACOUSTIC PANELS UNDERTONE

ABOUT UNDERTONE

The Acoustic Panel Undertone was created primarily as an acoustic panel, in addition to having a strong aesthetic impact. The rounded forms and numerous holes in its design were technically designed to dissipate sound waves. Although the primary goal of Undertone is to insulate sound, the design is modern and appealing, with wonderful light and shadow patterns.

ACOUSTIC PANELS BUZZER

ABOUT BUZZER

The Acoustic Panel Buzzer was designed primarily as an acoustic panel, in addition to having a high aesthetic impact. Its structure was designed to disperse sound waves using squared forms in a pyramid configuration. Despite the fact that Buzzer's primary function is to insulate sound, its appearance is modern and appealing, with gorgeous light and shadow effects.

MATERIAL

Massive cork pieces agglomerated with special resins and additives, molded-in shape with mass color pigmentation.

CORK BRICKS GRAND

ABOUT CORK BRICKS GRAND

Cork Bricks Grand harks back to traditional bricks while also reinventing the idea of cork in its natural state, yet maintaining a sense of comfort and warmth. The wide variety of shape and color combinations in the Cork Bricks Grand allow an infinite number of pattern options. The Cork Bricks Grand has an irreverent appearance thanks to its European artisanship style and handmade contemporary appeal, yet the essential characteristics of cork stay genuine.

MATERIAL

Natural cork pieces, pre-cleaned and treated, with an immersion finish of color pigments and other protection additives.

COMPLEMENTS SQUARE MOSS S

ABOUT SQUARE MOSS S

The small moss Square S emerged purely because we are passionate about the combination of preserved natural moss and cork. S Square Moss, which was designed to go with Cork Bricks 3D and Grand as well as Korkstone Classic, can be used as a complement that embraces the greenery and freshness of nature along with the elegance of cork.

MATERIAL

Solid cork sheet base filled with 100% naturally preserved moss. Due to the preserved moss' extension to the piece's ends, it is recommended to use it when combined with Cork Bricks 3D/Grand or Korkstone Classic. Intended for indoor use only. Maintenance-free.

PRIMECORK ENGRAVING

ABOUT PRIMECORK ENGRAVING

With the "Engraving" add-on, you can take the one-of-a-kind look of Primecork to a whole new level of wall decor! As a result, this complement includes the ability to customize each item individually via CNC drilling. To take advantage of this service, you'll need to send us a vector file of the design you want to perforate in the pieces - the design lines must be at least 3.5mm thick. The CNC drilling will be 2.5mm. In 4mm thickness, you can choose from any of the colors available in the two ranges (Classic and Premium). After drilling, the lines will always be the same color as natural cork.

MATERIAL

Panels with two layers. Massive cork tiles with color pigments, and a natural finishing treatment on the top. Water repellent. CNC drilling.

OUTROCK HEX-IN

ABOUT HEX-IN

The hexagon is symmetrical, simple, and has the unusual ability to be tessellated. We designed Hex-in by combining these features with three-dimensionality and several unevennesses, allowing you to create walls with individuality and volume. Even while making a repeated pattern, the tile can be positioned in various ways, allowing for unique and daring compositions. Light effects will also give a Hex-in installation a distinct radiance.

MATERIAL

Unique compound made up of three primary components: mineral compound based on silicates, post-consumer textile from the sports shoe industry, and special color pigments. Molded into various shapes, all tiles' surfaces are protected by a finish coating.

OUTROCK HEX-DOWN

ABOUT HEX-DOWN

Because of its two interlocking triangles, the hexagon is frequently used as a symbol of harmony and balance, as well as male and female energy. Hex-down combines the form's inherent beauty and geometry with a three-dimensional unevenness that creates optical illusions. It can be positioned in a variety of ways, allowing for unique and creative wall compositions. Combining Hex-down with lights can also produce an intriguing shadow play.

MATERIAL

Unique compound made up of three primary components: mineral compound based on silicates, post-consumer textile from the sports shoe industry, and special color pigments. Molded into various shapes, all tiles' surfaces are protected by a finish coating.

OUTROCK TOPOGRAPHY

ABOUT TOPOGRAPHY

A Topographic reading of the earth's surface is what inspired us to design an organic tile with a strong sense of movement. Topography curves demonstrate fluidity and leave room for the imagination to take off. It can be applied from multiple directions when creating a wall composition, allowing for the creation of a repeating or unruly pattern. When combined with lights, it can create an intriguing shadow play.

MATERIAL

Unique compound made up of three primary components: mineral compound based on silicates, post-consumer textile from the sports shoe industry, and special color pigments. Molded into various shapes, all tiles' surfaces are protected by a finish coating.

SIZE

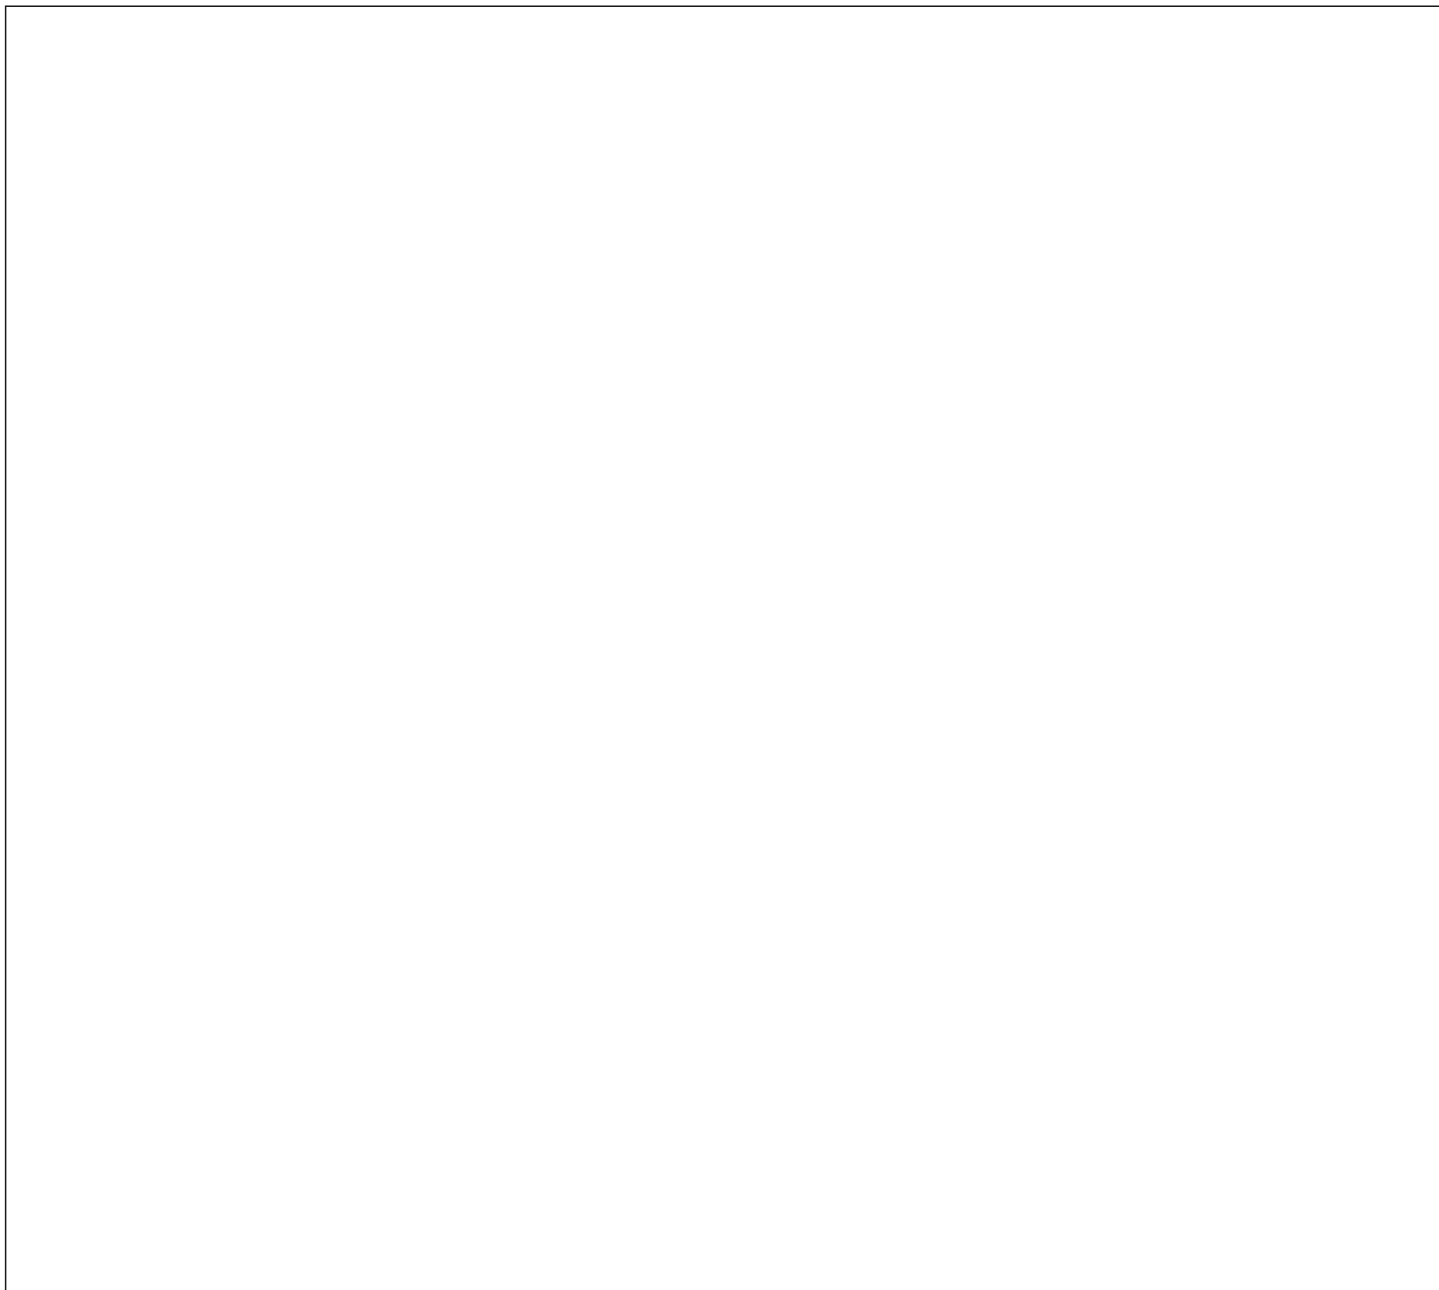

250 x 250 x 35 mm

INSTALLATION

Construction adhesive / contact cement

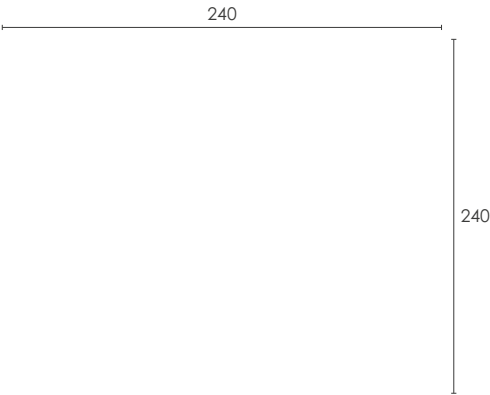

WEIGHT (box)

PACKED

ABOUT TIDE

Tide' waves are loose curves inspired by the ocean that create a soft, undulating silhouette that represents fluidity, transformation, and dynamism. With its asymmetrical waves, Tide emphasizes movement and change, creating rhythm by alternating the fluidity of its motioned lines. When creating a wall composition, Tide tiles can be applied from multiple directions, allowing for irreverent, powerful, and charming designs. Combining Tide and lights can also produce intriguing shadow play.

ABOUT TALE

Tale, like telling a story, allows for the creation of a amazing wall by repeating its curvilinear forms, allowing for continuity in time and space. Its three-dimensional shape, combined with its hourglass expression, results in an appealing design that conveys comfort and closeness. Light effects will also give a Tale installation a distinct glow.
